

Proximus Azure Services

Move your data and applications to the cloud

The cloud is transforming how businesses consume IT today by offering consumption-based resources and services that can be scaled up or down, as needed. This is a particularly appealing value proposition for companies, as they can take advantage of a scale that was previously cost-prohibitive.

How to simplify your IT transformation

You must have the freedom to modernize your IT and put your applications where they will fit best. But choosing the right cloud platform and enhancing global operations is complex and difficult to handle alone. The cloud is complex. As your trusted advisor, we can handle the migration details for you and take care of the management and optimization, so you can focus on your daily business activities. Our engineers and architects can help you to accelerate your growth and innovation at each stage of your cloud journey.

proximus

We can manage Microsoft Azure for you

The cloud changes the way applications are designed. Instead of monoliths, applications are divided into smaller, decentralized services. These services communicate through APIs or by using asynchronous messaging or eventing. Applications are scaled horizontally, adding new instances as required.

Proximus Azure Services is the answer for businesses facing these challenges. We combine expertise and automation to deliver architecture, security and support. You benefit from certified engineers and architects, who can help you get the most out of your cloud investment.

Proximus can help you to:

Maximize your investments

We help you to deploy and manage your Azure infrastructure and to maximize cost effectiveness.

Improve automation

Proximus Azure portal can simplify your daily operations and ensure best practices.

Connect multiple environments

Use Proximus ExpressRoute to create a reliable connection between your network and the Azure platform.

Ready to go?

Do you have any specific questions regarding your cloud journey? Our team of experts will answer all your questions to ensure you make the right decision.
